

NONLINEAR SIGNAL & IMAGE PROCESSING  
**NSIP**  
2003

Grado, 10th June 2003

This document attests that the special session entitled "Nonlinear tools and methods for adaptive learning analysis", which has taken place on Tuesday 10th June 2003, 14h-17h00, during the IEEE workshop NSIP'03 (Nonlinear Signal and Image Processing), has been chaired by Prof. Simone Fiori of Perugia University.

The session has been organized by Prof. João-Batista Destro-Filho, School of Electronic Engineering, University of Uberlandia, Brazil, during years 2002/2003.
